OPERATOR COMFORT & CONVENIENCE MAKE THE JOB EASIER

EACH ROADTEC PAVER IS ERGONOMICALLY DESIGNED FOR BETTER VISIBILITY, REDUCED NOISE, AND COMFORT.

- The New *Clearview FXS*® fume extraction system provides greater visibility to the front of the paver hopper, to the opposite side, and down to the augers.
- Paver controls are mounted to the pivoting seat station, which hydraulically swings out past the side of the machine for excellent visibility.
- All functions are easily accessible, including feed system and flow gate controls.
- Noise levels cut in half and improved visibility allow the operator to stay in constant communication with the rest of their crew.
